Subject: RACT for SGCI

---

Katie,

Stan Tong, from our rules section, was wondering if you have or know where he could get a copy of the RACT analysis referred to in the following document  
[http://www.pscleanair.org/announce/hearings/documents/0311\\_StGobainRACT.pdf](http://www.pscleanair.org/announce/hearings/documents/0311_StGobainRACT.pdf).

Stan is looking at RACT issues for glass plants in our region and thought it would be good to see what was done for the Seattle plant.

Cyntia
